Cedar of Lebanon FertilityCare Center and Client Agreement

Learning the Creighton Model FertilityCare System requires some time, energy and patience. However this will be an investment in your future! Congratulations on making this informed decision of choosing this unique system of fertility regulation that can be also used to monitor, maintain and evaluate a woman's procreative health.

Please sign below after you read the policy of Cedar of Lebanon FertilityCare Center, this form and understand its content.

The Creighton Model FertilityCare™ System, true system of family building, is not represented to be 100% effective in avoiding or achieving a pregnancy. The instructions will be given to you on the back of your chart and on the client assignment sheets.

- If your intention is to use the method to avoid a pregnancy and you choose to ignore or change those instructions, you will have chosen a less effective means of avoiding a pregnancy and have adopted a more effective means of achieving a pregnancy. Your FertilityCare Practitioner is here to assist you and clarify any instruction.

- The Creighton Model FertilityCare™ System and NaProTECHNOLOGY have been offering hope and healing for couples and women suffering with different reproductive health issues. Even though its effectiveness to achieve pregnancy with couples struggling with infertility can go up to 80%, we hold onto the fact that God is the Author of Life.

Fertility Appreciation is the foundation of the Creighton Model of FertilityCare System. It accepts fertility as a normal and healthy process, which is a precious gift from God. A gift to be loved, respected and wisely used. We want to help you appreciate and take care of your fertility.

The quality control of this method requires that a Pregnancy Evaluation be conducted on all pregnancies whether planned or unplanned free of charge.
