**Cedar of Lebanon FertilityCare Center and Client Agreement**

**Congratulations on making this informed decision and choosing to track your cycles using the Creighton Model FertilityCare System, a natural and holistic approach to women's fertility and health!**

**Please sign below after you read the policy of Cedar of Lebanon FertilityCare Center, this form and understand its content.**

- ✓ Learning the Creighton Model FertilityCare System requires some time, energy and patience. Compliance with the follow up schedule is crucial to gain confidence in using it.
- ✓ The Creighton Model FertilityCare<sup>TM</sup> System, a true system of family building, not a contraceptive method, is not represented to be 100% effective in avoiding or achieving a pregnancy. The instructions will be given to you on the back of your chart.
- ✓ If your intention is to use the method to avoid a pregnancy and you choose to ignore or change those instructions, you will have chosen a lesser effective means of avoiding a pregnancy and have adopted a more effective means of achieving a pregnancy.
- ✓ The Creighton Model FertilityCare<sup>TM</sup> System and NaProTECHNOLOGY have been offering hope and healing for couples and women suffering with different reproductive health issues. Despite its high effectiveness to achieve pregnancy with couples struggling with infertility, we hold onto the fact that God remains the Author of Life.
- ✓ Fertility Appreciation is the foundation of the Creighton Model FertilityCare System. It accepts fertility as a normal and healthy process, a precious gift from God to be loved, respected and wisely used. We want to help you appreciate and take care of your fertility.
- ✓ The quality control of this method requires that a Pregnancy Evaluation be conducted on all pregnancies whether planned or unplanned free of charge. We appreciate your cooperation.
